Comprehensive Drug-Adverse Reaction Causality Assessment Report

SYN-PV-011: Metformin - Nausea

Naranjo Score: 5 | Classification: Probable | WHO-UMC: Probable/Likely

Expectedness=Known; Dechallenge=Unknown; Rechallenge=Positive. Temporal relationship supports drug-event association.

SYN-PV-012: Amlodipine - Peripheral oedema

Naranjo Score: 5 | Classification: Probable | WHO-UMC: Probable/Likely

Expectedness=Known; Dechallenge=Unknown; Rechallenge=Positive. Temporal relationship supports drug-event association.

SYN-PV-013: Ciprofloxacin - Tendon pain

Naranjo Score: 5 | Classification: Probable | WHO-UMC: Probable/Likely

Expectedness=Known; Dechallenge=Negative; Rechallenge=Positive. Temporal relationship supports drug-event association.

SYN-PV-014: Sertraline - Dizziness

Naranjo Score: 2 | Classification: Possible | WHO-UMC: Possible

Expectedness=Known; Dechallenge=Negative; Rechallenge=Negative. Temporal relationship supports drug-event association.

SYN-PV-015: Omeprazole - Headache

Naranjo Score: 5 | Classification: Probable | WHO-UMC: Probable/Likely

Expectedness=Known; Dechallenge=Unknown; Rechallenge=Positive. Temporal relationship supports drug-event association.

SYN-PV-016: Losartan - Fatigue

Naranjo Score: 2 | Classification: Possible | WHO-UMC: Possible

Expectedness=Unexpected; Dechallenge=Positive; Rechallenge=Negative. Temporal relationship supports drug-event association.

SYN-PV-017: Amoxicillin - Rash

Naranjo Score: 5 | Classification: Probable | WHO-UMC: Probable/Likely

Expectedness=Known; Dechallenge=Unknown; Rechallenge=Positive. Temporal relationship supports drug-event association.

SYN-PV-018: Atorvastatin - Myalgia

Naranjo Score: 5 | Classification: Probable | WHO-UMC: Probable/Likely

Expectedness=Known; Dechallenge=Unknown; Rechallenge=Positive. Temporal relationship supports drug-event association.

SYN-PV-019: Metformin - Nausea

Naranjo Score: 3 | Classification: Possible | WHO-UMC: Possible

Expectedness=Known; Dechallenge=Positive; Rechallenge=Negative. Temporal relationship supports drug-event association.

SYN-PV-020: Amlodipine - Peripheral oedema

Naranjo Score: 3 | Classification: Possible | WHO-UMC: Possible

Expectedness=Known; Dechallenge=Unknown; Rechallenge=Not done. Temporal relationship supports drug-event association.

SYN-PV-021: Ciprofloxacin - Tendon pain

Naranjo Score: 4 | Classification: Possible | WHO-UMC: Possible

Expectedness=Known; Dechallenge=Positive; Rechallenge=Not done. Temporal relationship supports drug-event association.

SYN-PV-022: Sertraline - Dizziness

Naranjo Score: 5 | Classification: Probable | WHO-UMC: Probable/Likely

Expectedness=Known; Dechallenge=Negative; Rechallenge=Positive. Temporal relationship supports drug-event association.

SYN-PV-023: Omeprazole - Headache

Naranjo Score: 2 | Classification: Possible | WHO-UMC: Possible

Expectedness=Known; Dechallenge=Negative; Rechallenge=Negative. Temporal relationship supports drug-event association.

SYN-PV-024: Losartan - Fatigue

Naranjo Score: 5 | Classification: Probable | WHO-UMC: Probable/Likely

Expectedness=Unexpected; Dechallenge=Positive; Rechallenge=Positive. Temporal relationship supports drug-event association.

SYN-PV-025: Amoxicillin - Rash

Naranjo Score: 5 | Classification: Probable | WHO-UMC: Probable/Likely

Expectedness=Known; Dechallenge=Negative; Rechallenge=Positive. Temporal relationship supports drug-event association.

SYN-PV-026: Atorvastatin - Myalgia

Naranjo Score: 5 | Classification: Probable | WHO-UMC: Probable/Likely

Expectedness=Known; Dechallenge=Unknown; Rechallenge=Positive. Temporal relationship supports drug-event association.

SYN-PV-027: Metformin - Nausea

Naranjo Score: 5 | Classification: Probable | WHO-UMC: Probable/Likely

Expectedness=Known; Dechallenge=Unknown; Rechallenge=Positive. Temporal relationship supports drug-event association.

SYN-PV-028: Amlodipine - Peripheral oedema

Naranjo Score: 2 | Classification: Possible | WHO-UMC: Possible

Expectedness=Known; Dechallenge=Unknown; Rechallenge=Negative. Temporal relationship supports drug-event association.

SYN-PV-029: Ciprofloxacin - Tendon pain

Naranjo Score: 5 | Classification: Probable | WHO-UMC: Probable/Likely

Expectedness=Known; Dechallenge=Unknown; Rechallenge=Positive. Temporal relationship supports drug-event association.

SYN-PV-030: Sertraline - Dizziness

Naranjo Score: 6 | Classification: Probable | WHO-UMC: Probable/Likely

Expectedness=Known; Dechallenge=Positive; Rechallenge=Positive. Temporal relationship supports drug-event association.
